Census Reports

Retrospective and current reports on microfiche from 46 countries all over the world

The project

For more than 20 years IDC has been filming current and past Census reports from countries throughout the world with the assistance of and in collaboration with large libraries and institutions such as the Institute of Development Studies Library in Brighton, the London University School of Oriental and African Studies Library in London, the Overseas Development Administration in London, the British Library of Political and Economic Science in London, and the World Bank in Washington D.C.

Census reports are indispensable for research in many disciplines but are often difficult or impossible to find. This material is now within reach at low cost, with the additional advantage of saving storage space.
